About this product

Flush with the ceiling. Invisible to guests. Unbeatable for your island bench. Why is it silent? Every Schweigen rangehood uses a German-engineered Isodrive motor mounted outside your kitchen — in your ceiling cavity, roof space or exterior wall. Because the noise source is physically removed from the kitchen, you hear nothing but your cooking. Specifications Width 1000mm Depth 700mm Height 220mm Finish Stainless steel Type Ceiling cassette Airflow 1,600m^3/h Motor Isodrive SP.1600 Speed settings 4 speeds Filters Dishwasher-safe, lifetime warranty Ducting Schweigen SteelFlex safety ducting included About this model Installs flush into ceiling or bulkhead over island or peninsula benches. Perimeter Aspiration. Smart home compatible (Google Home / Alexa via separate WiFi switch). Perimeter Aspiration An additional panel creates a Venturi effect along the rangehood's edges for more effective capture of smoke and grease. Warranty Motor 10 years Canopy 3 years Filters Lifetime Installation Requires a licensed electrician to connect the motor and a qualified tradesperson to route ducting. Call Airdry for installer referrals: (02) 4367 8252.

Brand	Schweigen
Airflow	1,600 m^3/h
Motor type	Isodrive motor mounted outside your kitchen
Price (incl. GST)	$3,572.00
Availability	In stock

Frequently asked questions

How do I choose the correct rangehood size?

Rangehoods should ideally be larger than the cooking zone underneath to ensure optimal capture efficiency. Most rangehood types are available in 60 or 90cm width - covering the most common cooktop widths. Schweigen also has options for 120, 150 and 200cm width to cater for different install environments and requirements. Some models even come with enlarged depths to fit into deeper cabinetry for better coverage over the cooktop.

What ducting is recommended?
All Schweigen silent rangehoods powered by the German-made Isodrive Motor System include our Schweigen SteelFlex high performance safety ducting at no extra charge. Schweigen SteelFlex is the perfect solution to traditional ducting that may otherwise pose health and safety risks to homes. It is an ultra-strong and flexible high-performance safety duct made of Shirikon Firemesh.

What are the benefits of using LED lights?
LED (light emitting diode) lighting is very energy efficient. These lights generate very little heat, which means almost all the energy they consume is turned into light. They also last a long time (about 50 times longer than your average incandescent bulb).

What is the difference between baffle and mesh filters?
Mesh filters when compared to baffles have increased airflow and keep noise to a minimum. Baffles have a commercial look and are good for longevity. Baffles pros: Dishwasher-safe; Heavy-duty material and construction; Easy to remove; Lifetime warranty. Baffles cons: May be noisier than mesh filters; May drip oil if not cleaned well. Mesh filters pros: Dishwasher-safe; Captures more fat/oil particles; Easy to remove; Lifetime warranty.

How much is delivery?
Small parcel-sized items ship at a flat rate shown at checkout. Large or heavy items such as rangehoods, roof ventilators and kits are freight-quoted: we confirm the cost to your address and send a secure payment link before anything is charged.

How long will my order take to arrive?
We dispatch from Erina NSW within 1–3 business days. Delivery usually takes 2–10 business days depending on where you are.

Do you deliver to WA, NT and Tasmania?
Yes — we deliver Australia-wide, including WA, NT, Tasmania and regional areas. Remote areas can take a few extra days.
