About this product

ABOUT THIS MODEL You couldn't ask for more with this strikingly designed rangehood. Adapting European design and German engineered silent intelligence, the IS4110S is less bulky than many of the traditional styles of rangehood. As most canopies tend to make a room feel smaller, the IS4110S does the opposite and is able to open up an entire kitchen space. The angular look of this rangehood has become extremely popular in modern kitchens, boasting features such as soft-touch eye level controls, stainless steel finish and a 15 minute delay timer with automatic shut-off. Height of this unit is variable: 520-975mm. WARRANTIES 10 Years Motor Warranty 3 Years Canopy Warranty Lifetime Filter Warranty Lifetime GU10 LED Globe Warranty DIMENSIONS 898.0 mm WIDTH X 660.0 mm DEPTH X 975.0 mm HEIGHT Powerful silent extraction The German-engineered Isodrive® motor delivers silent, efficient extraction of steam, smoke and odours – leaving your kitchen fresher for longer. Energy-efficient The Schweigen Isodrive® motors are amongst the most energy-efficient in the market, requiring just 57 watts of power to run on some models. Innovative design This stainless steel canopy with square-edged Euro-styling creates a bold modern kitchen look. Convenient features Soft-touch controls and digital display, 5 speed levels, 15-minute auto shut-off timer and LED lighting.

Brand	Schweigen
Motor power	57 watt
Motor type	Isodrive® motor delivers silent
Warranty	10-year warranty
Price (incl. GST)	$4,256.00
Availability	In stock

Frequently asked questions

How do I choose the correct rangehood size?
Rangehoods should ideally be larger than the cooking zone underneath to ensure optimal capture efficiency. Most rangehood types are available in 60 or 90cm width - covering the most common cooktop widths. Schweigen also has options for 120, 150 and 200cm width to cater for different install environments and requirements. Some models even come with enlarged depths to fit into deeper cabinetry for better coverage over the cooktop.

What ducting is recommended?
All Schweigen silent rangehoods powered by the German-made Isodrive Motor System include our Schweigen SteelFlex high performance safety ducting at no extra charge. Schweigen SteelFlex is the perfect solution to traditional ducting that may otherwise pose health and safety risks to homes. It is an ultra-strong and flexible high-performance safety duct made of Shirikon Firemesh.

What are the benefits of using LED lights?
LED (light emitting diode) lighting is very energy efficient. These lights generate very little heat, which means almost all the energy they consume is turned into light. They also last a long time (about 50 times longer than your average incandescent bulb).

What is the difference between baffle and mesh filters?
Mesh filters when compared to baffles have increased airflow and keep noise to a minimum. Baffles have a commercial look and are good for longevity. Baffles pros: Dishwasher-safe; Heavy-duty material and construction; Easy to remove; Lifetime warranty. Baffles cons: May be noisier than mesh filters; May drip oil if not cleaned well. Mesh filters pros: Dishwasher-safe; Captures more fat/oil particles; Easy to remove; Lifetime warranty.

How much is delivery?
Small parcel-sized items ship at a flat rate shown at checkout. Large or heavy items such as rangehoods, roof ventilators and kits are freight-quoted: we confirm the cost to your address and send a secure payment link before anything is charged.

How long will my order take to arrive?
We dispatch from Erina NSW within 1–3 business days. Delivery usually takes 2–10 business days depending on where you are.

Do you deliver to WA, NT and Tasmania?
Yes — we deliver Australia-wide, including WA, NT, Tasmania and regional areas. Remote areas can take a few extra days.
