About this product

This Ecodrive®-powered silent exhaust fan comes with 850 m³/hr airflow to whisk away odours, steam, stale air and humidity in seconds – efficiently reducing airborne bacteria and preventing mould growth. It is designed to be installed through the roof or wall and suitable for almost any room in your unit, apartment, townhouse, single or multi-storey house. Please note that installing a door vent or ensuring a suitable gap below the door is essential for this exhaust fan to effectively remove steam and significantly minimize condensation in the bathroom. Box contains 1x Ecodrive® motor with 200mm backdraft shutter, 1x 200mm metal pipe, 1x 4m length of 200mm diameter flexi-ducting, 4x 12mm button head screws, 1x wall hanging bracket plus 1x white square integrated diffuser (DF-B). The BRB750 can also be vented to 2 adjacent rooms with the optional DVK750 ducting kit. Both the BRB750 and DVK750 are now available in one convenient bundle called the BRB752. **WARRANTIES** 3 Years Motor Warranty **DIMENSIONS** 313.0 mm WIDTH X 313.0 mm DEPTH X 89.0 mm HEIGHT Improves indoor air quality Hygienically removes odours and airborne bacteria without the use of toxic chemicals. Powerful silent extraction Powerful silent extraction – the externally-mounted German-engineered Isodrive® motor silently whisks away odours, steam, stale air and humidity in seconds.

Specifications

Brand	Schweigen
Airflow	850 m ³ /h
Motor power	57 watt
Motor type	Isodrive® motor silently whisks away odours
Warranty	3 Years Motor Warranty
Price (incl. GST)	\$1,349.00
Availability	In stock

Frequently asked questions

How do I choose the correct rangehood size?

Rangehoods should ideally be larger than the cooking zone underneath to ensure optimal capture efficiency. Most rangehood types are available in 60 or 90cm width - covering the most common cooktop widths. Schweigen also has options for 120, 150 and 200cm width to cater for different install environments and requirements. Some models even come with enlarged depths to fit into deeper cabinetry for better coverage over the cooktop.

What ducting is recommended?

All Schweigen silent rangehoods powered by the German-made Isodrive Motor System include our Schweigen SteelFlex high performance safety ducting at no extra charge. Schweigen SteelFlex is the perfect solution to traditional ducting that may otherwise pose health and safety risks to homes. It is an ultra-strong and flexible high-performance safety duct made of Shirikon Firemesh.

What are the benefits of using LED lights?

LED (light emitting diode) lighting is very energy efficient. These lights generate very little heat, which means almost all the energy they consume is turned into light. They also last a long time (about 50 times longer than your average incandescent bulb).

What is the difference between baffle and mesh filters?

Mesh filters when compared to baffles have increased airflow and keep noise to a minimum. Baffles have a commercial look and are good for longevity. Baffles pros: Dishwasher-safe; Heavy-duty material and construction; Easy to remove; Lifetime warranty. Baffles cons: May be noisier than mesh filters; May drip oil if not cleaned well. Mesh filters pros: Dishwasher-safe; Captures more fat/oil particles; Easy to remove; Lifetime warranty.

How much is delivery?

Delivery is free on orders of \$500 or more anywhere in Australia. Orders under \$500 have a flat \$25 freight charge.

How long will my order take to arrive?

We dispatch from Erina NSW within 1–3 business days. Delivery usually takes 2–10 business days depending on where you are.

Do you deliver to WA, NT and Tasmania?

Yes — we deliver Australia-wide, including WA, NT, Tasmania and regional areas. Remote areas can take a few extra days.
