About this product

ABOUT THIS MODEL With its distinctive pyramid shape, the gleaming TRI-900 wallmount showcases its European design roots and boasts powerful extraction performance with its 1080 m3/hr onboard motor. This handsome stainless steel unit comes with energy-efficient LED lighting, 3 speed levels and high-quality mesh filters that are easy to remove and dishwasher safe. Height of this unit is variable: 715-1165mm. WARRANTIES 3 Years Warranty Lifetime Filter Warranty Lifetime GU10 LED Globe Warranty tri900 DIMENSIONS 900.0 mm WIDTH X 500.0 mm DEPTH X 1160.0 mm HEIGHT Powerful extraction Efficient extraction of steam, smoke and odours leaves your cooking space fresher for longer. Classic design Contemporary Euro-styling with softer lines for a classic kitchen look. Convenient features Push button controls, 3-speed levels and energy-efficient LED lighting. High-quality filters Designed to minimise the edges where grease and oil can lodge, Schweigen's high-quality filters are easy to remove and dishwasher-safe. Warranties Enjoy peace of mind with a 3-year warranty on the rangehood, and lifetime warranty on filters and GU10 LED globes.* Frequently Asked Questions Why can't I hear the Schweigen rangehood running? Schweigen's Isodrive® technology places the motor remotely in the roof cavity, wall or ceiling void — away from the kitchen.

Airflow	1080 m^3/h
Motor type	Isodrive® technology places the motor remotely in the roof cavity
Warranty	3 Years Warranty
Price (incl. GST)	$989.00
Availability	In stock

Frequently asked questions

How do I choose the correct rangehood size?
Rangehoods should ideally be larger than the cooking zone underneath to ensure optimal capture efficiency. Most rangehood types are available in 60 or 90cm width - covering the most common cooktop widths. Schweigen also has options for 120, 150 and 200cm width to cater for different install environments and requirements. Some models even come with enlarged depths to fit into deeper cabinetry for better coverage over the cooktop.

What ducting is recommended?
All Schweigen silent rangehoods powered by the German-made Isodrive Motor System include our Schweigen SteelFlex high performance safety ducting at no extra charge. Schweigen SteelFlex is the perfect solution to traditional ducting that may otherwise pose health and safety risks to homes. It is an ultra-strong and flexible high-performance safety duct made of Shirikon Firemesh.

What are the benefits of using LED lights?
LED (light emitting diode) lighting is very energy efficient. These lights generate very little heat, which means almost all the energy they consume is turned into light. They also last a long time (about 50 times longer than your average incandescent bulb).

What is the difference between baffle and mesh filters?
Mesh filters when compared to baffles have increased airflow and keep noise to a minimum. Baffles have a commercial look and are good for longevity. Baffles pros: Dishwasher-safe; Heavy-duty material and construction; Easy to remove; Lifetime warranty. Baffles cons: May be noisier than mesh filters; May drip oil if not cleaned well. Mesh filters pros: Dishwasher-safe; Captures more fat/oil particles; Easy to remove; Lifetime warranty.

How much is delivery?
Small parcel-sized items ship at a flat rate shown at checkout. Large or heavy items such as rangehoods, roof ventilators and kits are freight-quoted: we confirm the cost to your address and send a secure payment link before anything is charged.

How long will my order take to arrive?
We dispatch from Erina NSW within 1–3 business days. Delivery usually takes 2–10 business days depending on where you are.

Do you deliver to WA, NT and Tasmania?
Yes — we deliver Australia-wide, including WA, NT, Tasmania and regional areas. Remote areas can take a few extra days.
