About this product

Compact size. Extraordinary extraction. Why is it silent? The remote motor explained. Every Schweigen rangehood uses a German-engineered Isodrive motor mounted outside your kitchen — typically in your ceiling cavity, roof space or exterior wall. Because the noise source is physically removed from the kitchen, you hear nothing but your cooking. This is the fundamental difference between Schweigen and every conventional rangehood. Specifications Width 598mm Depth 390mm Height 268mm Finish / material Matte black stainless steel Type Undermount Airflow 1,600m^3/h Motor Isodrive SP.1600 Speed settings 5 speeds Filters Dishwasher-safe, lifetime warranty Ducting Schweigen SteelFlex safety ducting included (fire, pest and crush resistant, lifetime guarantee) About this model Deeper cabinetry fit than most undermount rangehoods. Enhanced extraction zone for removing fats, oils and grease. Matte black stain-resistant finish. Warranty Motor 10 years Canopy 3 years Filters Lifetime Frequently Asked Questions Where does the motor go? The Isodrive motor mounts in your ceiling cavity, roof space, or on an exterior wall. Your installer routes ducting from the canopy to the motor location — this is why you never hear it operating. Do I need a licensed installer? Yes — Schweigen rangehoods require a licensed electrician to connect the motor. Call Airdry for installer referrals: (02) 4367 8252.

Specifications

SKU	UM1390-6BSP
Brand	Schweigen
Airflow	1,600 m^3/h
Motor type	Isodrive motor mounted outside your kitchen
Price (incl. GST)	$3,536.00
Availability	In stock

Frequently asked questions

How do I choose the correct rangehood size?

Rangehoods should ideally be larger than the cooking zone underneath to ensure optimal capture efficiency. Most rangehood types are available in 60 or 90cm width - covering the most common cooktop widths. Schweigen also has options for 120, 150 and 200cm width to cater for different install environments and requirements. Some models even come with enlarged depths to fit into deeper cabinetry for better coverage over the cooktop.

What ducting is recommended?
All Schweigen silent rangehoods powered by the German-made Isodrive Motor System include our Schweigen SteelFlex high performance safety ducting at no extra charge. Schweigen SteelFlex is the perfect solution to traditional ducting that may otherwise pose health and safety risks to homes. It is an ultra-strong and flexible high-performance safety duct made of Shirikon Firemesh.

What are the benefits of using LED lights?
LED (light emitting diode) lighting is very energy efficient. These lights generate very little heat, which means almost all the energy they consume is turned into light. They also last a long time (about 50 times longer than your average incandescent bulb).

What is the difference between baffle and mesh filters?
Mesh filters when compared to baffles have increased airflow and keep noise to a minimum. Baffles have a commercial look and are good for longevity. Baffles pros: Dishwasher-safe; Heavy-duty material and construction; Easy to remove; Lifetime warranty. Baffles cons: May be noisier than mesh filters; May drip oil if not cleaned well. Mesh filters pros: Dishwasher-safe; Captures more fat/oil particles; Easy to remove; Lifetime warranty.

How much is delivery?
Small parcel-sized items ship at a flat rate shown at checkout. Large or heavy items such as rangehoods, roof ventilators and kits are freight-quoted: we confirm the cost to your address and send a secure payment link before anything is charged.

How long will my order take to arrive?
We dispatch from Erina NSW within 1–3 business days. Delivery usually takes 2–10 business days depending on where you are.

Do you deliver to WA, NT and Tasmania?
Yes — we deliver Australia-wide, including WA, NT, Tasmania and regional areas. Remote areas can take a few extra days.
